Opening times: 10.00-21.00

Cocktail: Wednesday, 5th April 2006, 19.00 h

Memphis celebrates its first twenty-five years and presents its masterpieces with an exhibition curated by Alessandro Mendini, assisted by Giovanna Molteni.

Furniture, lamps, glassware, items in silver, porcelain and ceramics, carpets and textiles, all conceived and designed by the Memphis designers in the historical "laboratory of ideas", during the most creative and innovative years of industrial design.

Never have colors, shapes and materials given such life to objects that they seem to convey real emotions.

Memphis is presenting a special selection, including items little known to the international public, in its show room, the Post Design Galleria of Milan.
